FOR THE
ANNUAL MEETING OF SHAREHOLDERS
OF**

SKYWEST, INC.

TUESDAY, MAY 3, 2016

OVERVIEW

Solicitation

This Proxy Statement, the accompanying Notice of Annual Meeting, proxy card and the Annual Report to Shareholders of SkyWest, Inc. (the “*Company*” or “*SkyWest*”) are being mailed on or about March 17, 2016. The Board of Directors of the Company (the “*Board*”) is soliciting your proxy to vote your shares at the Annual Meeting of the Company’s Shareholders to be held on May 3, 2016 (the “*Meeting*”). The Board is soliciting your proxy in an effort to give all shareholders of record the opportunity to vote on matters that will be presented at the Meeting. This Proxy Statement provides information to assist you in voting your shares.

What is a proxy?

A proxy is your legal designation of another person to vote on your behalf. You are giving the individuals appointed by the Board as proxies (Jerry C. Atkin, Russell A. Childs and Robert J. Simmons) the authority to vote your shares in the manner you indicate.

Why did I receive more than one notice?

You may receive multiple notices if you hold your shares in different ways (e.g., joint tenancy, trusts, or custodial accounts) or in multiple accounts. If your shares are held by a broker (i.e., in “street name”), you will receive your notice or other voting information from your broker. In any case, you should vote for each notice you receive.

Voting Information

Who is qualified to vote?

You are qualified to receive notice of and to vote at the Meeting if you owned shares of common stock of SkyWest (the “*Common Stock*”) at the close of business on the record date of Friday, March 4, 2016.

How many shares of Common Stock may vote at the Meeting?

As of March 4, 2016, there were 51,353,043 shares of Common Stock outstanding and entitled to vote. Each share of Common Stock is entitled to one vote on each matter presented at the Meeting.

What is the difference between a “shareholder of record” and a “street name” holder?

If your shares are registered directly in your name with Zion’s First National Bank, the Company’s transfer agent, you are a “shareholder of record.” If your shares are held in the name of a brokerage, bank, trust or other nominee as a custodian, you are a “street name” holder.

How can I vote at the Meeting?

You may vote in person by attending the Meeting. You may also vote in advance over the Internet, or by telephone, or you may request a complete set of traditional proxy materials and vote your proxy by mail. To vote your proxy using the Internet or telephone, see the instructions on the proxy form and have the proxy form available when you access the Internet website or place your telephone call. To vote your proxy by mail, mark your vote on the enclosed proxy card, then follow the instructions on the card.

What are the Board's recommendations on how I should vote my shares?

The Board recommends that you vote your shares as follows:

Proposal 1—**FOR** the election of all ten nominees for director with terms expiring at the next annual meeting of the Company's shareholders.

Proposal 2—**FOR** the non-binding resolution to approve the compensation of the Company's named executive officers.

Proposal 3—**FOR** the ratification of the appointment of Ernst & Young, LLP as the Company's independent registered public accounting firm (independent auditors) for the year ending December 31, 2016.

What are my choices when voting?

Proposal 1—You may cast your vote in favor of up to ten individual director-nominees. You may vote for less than ten director-nominees if you choose. You may also abstain from voting.

Proposals 2 and 3—You may cast your vote in favor of, or against, each proposal. You may also abstain from voting.

How will my shares be voted if I do not specify how they should be voted?

If you execute the enclosed proxy card without indicating how you want your shares to be voted, the proxies appointed by the Board will vote as recommended by the Board and described previously in this section.

How will withheld votes, abstentions and broker non-votes be treated?

Withheld votes, abstentions and broker non-votes will be deemed as "present" at the Meeting, and will be counted for quorum purposes only.

Can I change my vote?

You may revoke your proxy before the time of voting at the Meeting in any of the following ways:

- by mailing a revised proxy card to the Chief Financial Officer of the Company;
- by changing your vote on the Internet website;
- by using the telephone voting procedures; or
- by voting in person at the Meeting.

What vote will be required to approve each proposal?

Proposal 1 provides that the ten director-nominees who receive a majority of the votes cast with respect to his or her election will be elected as directors of the Company. This means that the number of shares voted “for” the election of a director must exceed the number of shares voted “against” the election of that director.

Proposals 2 and 3 will be approved if the number of votes cast, in person or by proxy, in favor of a particular proposal exceeds the number of votes cast in opposition to the proposal. Proposal 2 is an advisory vote only, and has no binding effect on the Board or the Company.

Who will count the votes?

Representatives from Zion’s First National Bank, the Company’s transfer agent, or other individuals designated by the Board, will count the votes and serve as inspectors of election. The inspectors of election will be present at the Meeting.

Who will pay the cost of this proxy solicitation?

The Company will pay the costs of soliciting proxies. Upon request, the Company will reimburse brokers, dealers, banks and trustees, or their nominees, for reasonable expenses incurred by them in forwarding proxy materials to beneficial owners of shares of the Common Stock.

Is this Proxy Statement the only way proxies are being solicited for use at the Meeting?

Yes. The Company does not intend to employ any other methods of solicitation.

How are proxy materials being delivered?

The Company is pleased to take advantage of U.S. Securities and Exchange Commission rules that allow companies to furnish their proxy materials over the Internet. As a result, the Company is mailing to most of its shareholders a Notice of Internet Availability of Proxy Materials (the “*Notice*”) instead of a paper copy of this Proxy Statement and the Company’s 2015 Annual Report to Shareholders. The Notice contains instructions on how to access those documents over the Internet. The Notice also contains instructions on how to request a paper copy of the Company’s proxy materials, including this Proxy Statement, the 2015 Annual Report to Shareholders and a form of proxy card or voting instruction card. All shareholders who do not receive a Notice will receive a paper copy of the proxy materials by mail. The Company believes this process will allow it to provide its shareholders with the information they need in a more efficient manner, while reducing the environmental impact and lowering the costs of printing and distributing these proxy materials.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board adopted Corporate Governance Guidelines on August 2, 2005 and has periodically reviewed and ratified those guidelines, most recently on February 10, 2016. The Corporate Governance Guidelines can be accessed at the Company's website, *inc.skywest.com*. The Company's Corporate Governance Guidelines supplement the Company's Bylaws and the charters of the Board's committees. Excerpts from the principal sections of the Company's Corporate Governance Guidelines are noted below:

Director Independence

At a minimum, the Board will have a majority of directors who meet the criteria for independence as required by The Nasdaq Global Select Market.

Director Qualifications

Criteria for Membership

The Company's Nominating and Corporate Governance Committee is responsible for annually reviewing with the Board the desired skills and characteristics of directors, as well as the composition of the Board as a whole.

Terms and Limitations

All directors currently stand for election each year. The Board does not believe it should establish a limit on the number of times that a director may stand for election.

Retirement

Directors are required to submit their resignation from the Board when their term expires upon reaching the age of 72 years old. The Board will accept the resignation unless the Nominating and Corporate Governance Committee recommends otherwise. Directors generally will not be nominated for election following their 72nd birthday.

Ownership of Company Stock

Directors are encouraged to own shares of Common Stock having a value equal to three times the amount of their annual cash retainer.

Director Responsibilities

General Responsibilities

The basic responsibility of directors is to exercise their business judgment to act in what they reasonably believe to be in the best interests of the Company and its shareholders.

Oversight of Management

The Board is responsible to encourage the Company's management to effectively implement policies and strategies developed by the Board, and to provide dynamic leadership of the Company.

Board Meetings and Materials

Frequency of Meetings

The Board has four regularly scheduled meetings per year. As determined necessary by the Board and in order to address the Company's needs, special meetings of the Board are convened from time to time.

Meeting Responsibilities

Absent extraordinary circumstances, directors of the Company should attend Board meetings, meetings of the committee on which they serve and shareholder meetings. The Chairman of the Board is responsible for establishing the agenda for each Board meeting. Each director is free to suggest the inclusion of items on the agenda and to raise at any Board meeting subjects that are not on the agenda for that meeting.

Executive Sessions of Independent Directors

The Company's independent directors meet in executive session regularly, generally quarterly. The independent directors may either choose one director annually to serve as the Lead Independent Director and to preside at all executive sessions or establish a procedure by which a Lead Independent Director will be selected. The independent directors of the Company have chosen Mr. Udvar-Hazy to serve as the Lead Independent Director.

Committees

The Board has four standing committees: (1) Audit and Finance, (2) Compensation, (3) Nominating and Corporate Governance and (4) Safety and Compliance. The Board may, from time to time, establish or maintain additional committees as the Board deems necessary or appropriate.

Director Compensation

The form and amount of director compensation is determined by the Board based on general principles established on the Nominating and Corporate Governance Committee's recommendation. These principles are in accordance with the policies and principles set forth in the Nominating and Corporate Governance Committee's charter and are intended to be consistent with rules established by The Nasdaq Global Select Market, including those relating to director independence and to compensation of Audit and Finance Committee members.

CEO Evaluation and Management Succession

The Nominating and Corporate Governance Committee conducts an annual review to assess the performance of the Company's Chief Executive Officer. The Nominating and Corporate Governance Committee communicates the results of its review to the other directors in a meeting that is not attended by the Chief Executive Officer. The directors of the Company, excluding the Chief Executive Officer, review the Nominating and Corporate Governance Committee's report to assess the Chief Executive Officer's leadership in the long and short-term, as well as the Company's long-term succession plans.

Annual Evaluations

The Board conducts an annual evaluation to determine if the Board and its committees are functioning effectively. The Nominating and Corporate Governance Committee solicits comments from all of the Company's directors and reports annually to the Board with an assessment of the Board's performance. Each of the Board's standing committees conducts an annual evaluation to assess the performance of the applicable committee.

Review and Access to Guidelines

The Nominating and Corporate Governance Committee reviews the Company's Corporate Governance Guidelines at least annually, then, as it deems appropriate, recommends amendments to the Board.

Board Leadership Structure

Although the Board does not have a formal policy on whether the roles of Chairman of the Board and Chief Executive Officer should be combined or separated, from 1991 until January 2016, Jerry C. Atkin served as both Chairman of the Board and Chief Executive Officer of the Company. In January 2016, the Board appointed Russell A. Childs to serve as the Chief Executive Officer of the Company, which resulted in the separation of the roles of Chairman of the Board and Chief Executive Officer. Currently, Mr. Atkin serves as Chairman of the Board and Mr. Childs serves as the Chief Executive Officer. The Board believes that such separation allows Mr. Childs to focus his time and energy on managing the Company's business on a day-to-day basis, while also leveraging Mr. Atkin's background with the Company, perspective and vast experience in the aviation industry as he devotes his time and attention to matters of Board oversight.

The Company is committed to independent Board oversight. Pursuant to the Company's Corporate Governance Guidelines, all of the Company's directors (other than Messrs. Atkin and Childs) meet the standards of independence applicable to the Company, and the Board has designated Steven F. Udvar-Hazy as Lead Independent Director. As Lead Independent Director, Mr. Udvar-Hazy is empowered to prepare agendas for and conduct meetings of the non-management directors, communicate with the Chairman of the Board, disseminate information to the Board, and raise issues with management on behalf of the independent directors when appropriate. The Board's independent oversight function is enhanced by the fact that the Audit and Finance, Compensation, Nominating and Corporate Governance and Safety and Compliance Committees are comprised entirely of independent directors.

The Board believes no single leadership model is right for all companies at all times. The Board recognizes that, depending on the circumstances, other leadership models may be appropriate. The independent directors and the Nominating and Corporate Governance Committee regularly review the Company's leadership structure and, depending on the Company's needs and the available resources, the Board may modify the Company's existing leadership structure.

In its periodic meetings with the internal auditors and the Company’s independent accountants, the Audit and Finance Committee discusses the scope and plan for the internal audit and includes management in its review of accounting and financial controls, assessment of business risks, legal and ethical compliance programs and related-party transactions. The Board and the Compensation Committee monitor CEO succession and the Company’s compensation policies and related risks by regular reviews with management and the Compensation Committee’s outside advisors. The Board and the Safety and Compliance Committee monitor management’s administration of airline flight operations safety and compliance with safety regulations.

The Company has established a whistleblower hotline that enables employees, customers, suppliers and shareholders of the Company and its subsidiaries, as well as other interested parties, to submit confidential and anonymous reports of suspected or actual violations of the Code of Ethics. The hotline number is (888) 273-9994.

All directors attended at least 75% of the meetings of the Board and of the committees on which he or she served during the year ended December 31, 2015 and seven of the Company's eight directors who were then serving attended the Annual Meeting of the Company's Shareholders held on May 5, 2015.

The Board has four standing committees to facilitate and assist the Board in the execution of its responsibilities: (1) Audit and Finance, (2) Compensation, (3) Nominating and Corporate Governance and (4) Safety and Compliance. Nomination Process

The policy of the Nominating and Corporate Governance Committee is to consider properly submitted shareholder recommendations for candidates to serve as directors of the Company. In evaluating those recommendations, the Nominating and Corporate Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board and to address the membership criteria described below. Any shareholder wishing to recommend a candidate for consideration by the Nominating and Corporate Governance Committee should submit a recommendation in writing indicating the candidate's qualifications and other relevant biographical information and provide confirmation of the candidate's consent to serve as a director. This information should be addressed to Jerry C. Atkin, Chairman of the Board of the Company, 444 South River Road, St. George, Utah 84790.

As contemplated by the Company's Corporate Governance Guidelines, the Nominating and Corporate Governance Committee reviews the appropriate skills and characteristics required of directors in the context of the current composition of the Board, at least annually. There is currently no set of specific minimum qualifications that must be met by a nominee recommended by the Nominating and Corporate Governance Committee, as different factors may assume greater or lesser significance at particular times and the needs of the Board may vary in light of its composition and the Nominating and Corporate Governance Committee's perceptions about future issues and needs. Among the factors the Nominating and Corporate Governance Committee considers, which are outlined in the Corporate Governance Guidelines, are independence, diversity, age, skills, integrity and moral responsibility, policy-making experience, ability to work constructively with the Company's management and directors, capacity to evaluate strategy and reach sound conclusions, availability of time and awareness of the social, political and economic environment.

The Nominating and Corporate Governance Committee utilizes a variety of methods for identifying and evaluating director nominees. The Nominating and Corporate Governance Committee assesses the appropriate size of the Board, and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Nominating and Corporate Governance Committee considers various potential candidates for director. Candidates may come to the attention of the Nominating and Corporate Governance Committee through various means, including current directors, professional search firms, shareholder recommendations or other referrals. Candidates are evaluated at meetings of the Nominating and Corporate Governance Committee, and may be considered at any point during the year. All director-nominee recommendations which are properly submitted to the Nominating and Corporate Governance Committee are aggregated and considered by the Nominating and Corporate Governance Committee at a meeting prior to the issuance of the proxy statement for the next annual meeting of shareholders. Any materials provided by a shareholder in connection with the recommendation of a director candidate are forwarded to the Nominating and Corporate Governance Committee, which considers the recommended candidate in light of the director qualifications discussed above. The Nominating and Corporate Governance Committee also reviews materials provided by professional search firms, if applicable, or other parties in connection with a candidate who is not proposed by a shareholder. In evaluating such recommendations, the Nominating and Corporate Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board. The Nominating and Corporate Governance Committee has, on occasion, engaged professional search firms to assist in identifying qualified candidates for Board service. When such firms have been engaged, the Nominating and Corporate Governance Committee has utilized their services principally for the purpose of identifying and screening potential candidates and conducting background research; however, the members of the Nominating and Corporate Governance Committee, as well as other directors of the Company, have conducted interviews with prospective candidates and have performed other functions in completing the nomination process.

Compensation Committee Interlocks and Insider Participation

Keith E. Smith, Ronald J. Mittelstaedt, Henry J. Eyring, Steven F. Udvar-Hazy, Margaret S. Billson and Robert G. Sarver served as members of the Compensation Committee at various times during the year ended December 31, 2015. None of the individuals who served on the Compensation Committee during the year ended December 31, 2015, was an officer or employee of the Company in 2015 or any time prior thereto. None of the members of the Compensation Committee during the year ended December 31, 2015, had any relationship with the Company requiring disclosure under Item 404 of Regulation S-K promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). - Russell A. Childs, Chief Executive Officer and President of the Company, SkyWest Airlines and ExpressJet;

- Terry M. Vais, Chief Operating Officer of ExpressJet.

The compensation discussion and analysis provides narrative perspective to the tables and disclosure in the tables following this section.

Current Year Accomplishments

The Company's income before income taxes improved to \$194 million in 2015, from a loss before income taxes of \$16 million in 2014. Operating income improved to \$234 million in 2015, from \$25 million in 2014. The 2014 results included a \$75 million pre-tax special items operating expense primarily related to fleet reductions. Such improvement was driven, in part, by the following accomplishments:

- The improvement in fleet mix, which included a net reduction in the total number of aircraft available for service from 717 aircraft at December 31, 2014 to 660 at December 31, 2015, summarized as follows:
 - Added 25 new Embraer E175 aircraft under flying contracts with improved profitability;
 - Added 21 used 50-seat aircraft under flying contracts with improved profitability;
 - Removed 76 50-seat aircraft from unprofitable or less profitable flying contracts;
 - Removed the remaining less profitable 27 Embraer EMB-120 turboprop from its operations;
- SkyWest Airlines' and ExpressJet's improved operational performance resulted in additional flying contract performance incentives earned;
- The Company continued to improve the profitability of its pro-rate operations; and
- The Company worked with its major airline partners to reduce scheduled operations at specific hubs to improve operational efficiencies.

These accomplishments not only improved the Company's performance, but the Board believes these accomplishments will contribute to improved financial performance in future years.

Compensation Objectives and Principles

The overall objective of the Company's executive compensation programs is to create long-term value for the Company's shareholders by attracting and retaining talented executives that effectively manage the Company in a manner that is consistent with the long-term interest of shareholders.

Accordingly, the executive compensation program incorporates the following principles:

- The overall compensation package should encourage long-term focus and shareholder value creation.
- Compensation should be competitive with other airlines in order to attract and retain talented executives.
- Compensation should be based upon individual responsibility, leadership ability and experience.
- Compensation should reflect the fair market value of the services received.
- A significant amount of total compensation should be incentive based, and should correlate to the Company's financial performance, as well as the achievement of operational goals.
- Compensation should not encourage the taking of undue, material risk.

Executive Compensation Procedures

To attain the Company's executive compensation objectives and to implement the underlying compensation principles, the Company follows the following procedures:

Role of the Committee. The Compensation Committee has responsibility for establishing and monitoring the executive compensation programs and for making decisions regarding executive compensation. The Chief Executive regularly attends the Compensation Committee meetings. The Compensation Committee also meets regularly in executive sessions. The Compensation Committee recommends the compensation package of the Chief Executive to the Board, which then sets his compensation. The Compensation Committee also considers the recommendations of the Chief Executive with respect to compensation of the other Executives, and after reviewing such recommendations, sets their compensation. The Compensation Committee also monitors, administers and approves awards under the various incentive compensation plans for all levels within the Company, including awards under the Company's annual bonus plan and 2010 Long-Term Incentive Plan (the "2010 Plan"). As permitted by the 2010 Plan, the Compensation Committee has authorized designated directors of the Company to approve interim awards under the 2010 Plan to non-Executives on a limited basis between meetings of the Compensation Committee.

The Compensation Committee relies on its judgment in making compensation decisions in addition to reviewing relevant information and results. When setting total compensation for each of the Executives, the Compensation Committee reviews tally sheets which show the Executive's current compensation, including base pay, annual bonus objectives, long-term, equity-based compensation objectives, and deferred compensation retirement funding. The Compensation Committee has the sole discretion to award compensation and make adjustments to awards based on the Compensation Committee's review of relevant information and other unusual or non-recurring items.

The Compensation Committee also occasionally evaluates surveys and other available data regarding the executive compensation programs of other regional and major air carriers in order to determine competitiveness of the

Company's executive compensation programs. The Compensation Committee performed such a review in 2015 that included a review of the executive compensation practices of peer transportation companies including, but not limited to Allegiant, Hawaiian Holdings, JetBlue, Republic Airways, Virgin America, Alaska Air Group, Hub Group, Werner Enterprises and Spirit Airlines. The Compensation Committee did rely upon such review of peer company compensation practices. The executive compensation procedures and the Compensation Committee assessment process are designed to be flexible in an effort to promptly respond to the evolving business environment and individual circumstances.

Role of Consultants. Neither the Company nor the Compensation Committee has any contractual arrangement with any compensation consultant for determining the amount or particular form of any Executive's compensation. During 2014 and 2015, the Company and Compensation Committee received advice from Frederic W. Cook & Co., Inc. ("F.W. Cook") with respect to executive compensation practices and trends generally and within the airline industry. The Company and the Compensation Committee retained F.W. Cook to make recommendations regarding the specific amount or forms of compensation awarded to Executives in 2014 and 2015. The Company and the Compensation Committee will continue to periodically seek the advice of such consultants, as deemed necessary, in the future. The Compensation Committee has sole authority to hire and fire external compensation consultants.

No Employment and Severance Agreements. The Executives do not have employment, severance or change-in-control agreements, although the vesting of stock options, restricted stock, restricted stock units, performance shares and performance units generally is accelerated upon a change in control of the Company. The Executives serve at the will of the Board, which enables the Board to terminate the employment of any Executive with discretion as to the terms of any severance. This is consistent with the Company's performance-based employment and compensation philosophy.

Compensation Committee Consideration of Shareholder Advisory Vote. At the Company's Annual Meeting of Shareholders held in May 2015, the Company submitted the compensation of its named executive officers to the Company's shareholders in a non-binding vote. The Company's executive compensation program received the support of more than 63% of the shares represented at the meeting. The Compensation Committee considered the results of the 2015 vote and views the outcome as evidence of positive shareholder support of its executive compensation decisions and policies. The Compensation Committee made some revisions to the Company's executive compensation program for 2015 in an effort to better align the compensation packages of the Executives with the executive compensation programs of other regional carriers and major airlines. The Compensation Committee will continue to review completed compensation surveys and future shareholder voting results, including the voting results with respect to "Proposal 2—Advisory Vote on Executive Compensation" described in this Proxy Statement, and determine whether to make any changes to the Company's executive compensation program in light of such surveys and voting results.

Elements of Compensation

The Company's executive compensation objectives and principles are implemented through the use of the following principal elements of compensation, each discussed more fully below:

- Salary
- Annual Bonus
- Long-Term Awards
- Retirement and Other Benefits

The compensation objectives for each Executive are more fully described in the following paragraphs.

Salary. Salary is provided with the objective of paying for the underlying role and responsibility associated with the Executive's position, which the Compensation Committee believes allows the Company to attract and retain qualified executives. The Executives' salaries are set at levels that the Compensation Committee believes are generally competitive with the compensation paid to officers in similar positions at other airlines. Salary adjustments are considered annually and influenced by growth of the Company's operations, individual performance, changes in responsibility, changes in cost of living, and other factors. The salaries of the Executives are set forth in the Summary Compensation Table immediately following this section.

Annual Bonus. In an effort to encourage achievement of the Company's objectives, an annual performance-based bonus plan is maintained for the Executives. The combination of salary and annual bonuses is intended to result in a cash compensation package for each Executive that falls within competitive market standards as determined by the Compensation Committee based on its review and understanding of other regional and major air carrier executive compensation programs when the performance measures are met. The purpose of the bonus plan is to reward the Executives with an annual cash bonus in an amount that correlates (i) in part, to the level of pre-tax earnings of the Company or its operating subsidiaries achieved for the year; (ii) in part, to the level of cash flow from operations of the Company or its operating subsidiaries achieved for the year; and (iii) in part, to the achievement of specific operational goals during the year. The 2015 annual bonus objective of 100% of salary for Messrs. Atkin and Childs, was allocated between 65% of salary based on a pre-tax earnings target established by the Compensation Committee, 10% of salary based on a cash flow from operations target established by the Compensation Committee and 25% of salary based on the achievement of specific operational targets. The 2015 annual bonus objective of 80% of salary for Messrs. Steel, Simmons and Thompson was allocated between 52% of salary based on a pre-tax earnings target established by the Compensation Committee, 8% of salary based on a cash flow from operations target established by the Compensation Committee and 20% of salary based on the achievement of specific operational targets. Mr. Vais was appointed Chief Operating Officer of ExpressJet during 2015. Mr. Vais 2015 weighted annual bonus objective was 68% of his salary, allocated between 44% of salary based on a pre-tax earnings target, 7% of salary based on a cash flow from operations target and 17% of salary based on the achievement of specific operational targets. The differing percentages for the Executives are due to differing entity level responsibilities. Details are explained below under the headings "2015 Pre-tax Earnings Target Component", "2015 Cash Flow from Operations Target Component" and "2015 Operational Targets Component".

In the case of Messrs. Atkin, Childs, Steel and Simmons, the applicable pre-tax earnings target, cash flow from operations target and operational targets were based on the pre-tax earnings, the cash flow from operations and the operational performance of both operating subsidiaries, SkyWest Airlines (weighted 50%) and ExpressJet (weighted 50%). Because of his primary responsibility with respect to operations of SkyWest Airlines, Mr. Thompson's pre-tax earnings, cash flow from operations and operational performance targets were set at the designated amounts at the SkyWest Airlines level. Similarly, because Mr. Vais was principally engaged with respect to the operations of ExpressJet, his pre-tax earnings, cash flow from operations and operational performance targets were set at the designated amounts at the ExpressJet level. At year-end, the Compensation Committee reviewed the actual pre-tax earnings, cash flow from operations and operational performance for the year, as well as other items taken into account in setting the annual pre-tax earnings, cash flow from operations and operational performance targets, and determined the extent to which the applicable goals were met.

2015 Pre-tax Earnings Target Component. In determining the annual pre-tax earnings and other financial targets to be used for the purpose of determining each bonus amount for the Executives, the Compensation Committee began with a targeted pre-tax earnings objective which the Compensation Committee considered a key measure of the financial health of the Company and the Board believes is reflective of the Company's development of shareholder value. The Compensation Committee then considered the planned budget for the year and other unusual or non-recurring items, including changes in pro-rate flying market yields and fuel price changes. The above measurement was identified to encourage continued focus on overall pre-tax earnings and to facilitate the exchange of best practices between the operating subsidiaries of the Company.

2015 Cash Flow from Operations Target Component. In determining the annual cash flow from operations target to be used for the purpose of determining each bonus amount for the Executives, the Compensation Committee began with a targeted cash flow from operations objective which the Compensation Committee considered a key measure of the financial health of the Company and the Board believes is reflective of the Company's development of shareholder value. The Compensation Committee then considered the planned budget for the year and other unusual or non-recurring items. The above measurement was identified to encourage continued focus on overall generation of free cash flow from operations and to facilitate the continued strength of the Company's balance sheet.

2015 Operational Targets Component. A portion of the Executives' annual bonus is based on their achievement of operational targets established in advance each year. The Compensation Committee has adopted this approach because it believes the use of operational goals allow awards to reflect the operational achievements of operating subsidiaries of the Company that may not be reflected by corporate financial performance. The actual amount of the bonus payment for each Executive is determined by the Compensation Committee based on the Company's and/or applicable subsidiary's achievement of operational goals.

The corresponding results for each Executive performance-based annual bonus for the year ended December 31, 2015, are set forth below as a percentage of each Executive's salary.

	Objective Percentage of Salary	Pre-tax earnings & Financial		Cash Flow From Operations		Operational		Total Annual Bonus Results
		Target	Results	Target	Results	Target	Results	
Jerry C. Atkin	100 %	65.0 %	95.1 %	10.0 %	15.0 %	25.0 %	30.6 %	140.7 %

- (1) Objective Percentage of Salary for Mr. Vais was adjusted to 80% from 60% effective with his promotion to Chief Operating Officer in September 2015. The blended Objective Percentage of Salary for the entire year for Mr. Vais was 68%.

Amount of 2015 Performance-Based Annual Bonus. The total annual performance-based bonus amounts payable to the Executives for 2015 were: Mr. Atkin—\$606,093; Mr. Childs—\$464,277; Mr. Steel—\$270,125; Mr. Simmons—\$337,656; Mr. Thompson—\$235,624 and Mr. Vais—\$163,371. Those amounts are included in the amounts shown in the Summary Compensation Table below under the caption heading "Non-Equity Incentive Plan Compensation."

2016 Annual Bonus. The Compensation Committee determined to make some changes to the annual bonus metrics for 2016 in an effort to better align the bonus with the creation of shareholder value and to align the compensation packages of the Executives with the executive compensation programs of other regional carriers and major airlines. The bonus objective will be based on two metrics, pre-tax earnings (weighted 75%) and operating performance (weighted 25%).

Long-Term Awards. The Company grants discretionary long-term incentive awards, in the form of stock options, restricted stock units and performance shares to the Executives annually.

Long-term incentive awards are made to encourage the Executives to continue their engagement with the Company throughout the vesting periods of the awards and to align management and shareholder interests. In making awards to the Executives, the grant size and the appropriate mix of equity-based awards are considered. The Compensation Committee generally grants long-term incentive awards at its first meeting of each year. Except in the

case of accelerated vesting upon a change in control of the Company, long-term incentive awards currently vest only if the Executive remains employed by the Company for three years from the date of grant, with the exception of stock options which vest one third at each annual anniversary of the date of grant over a three year period. The Compensation Committee believes the three-year cliff-vesting schedule for non-stock option grants and pro rata vesting over three years for stock options assists in retaining Executives and encourages the Executives to focus on the Company's long-term performance.

In granting stock options, restricted stock units and performance shares to the Executives, the Compensation Committee also considers the impact of the grant on the Company's financial performance, as determined in accordance with the requirements of Financial Accounting Standards Board Accounting Standards Codification Topic 718 (ASC Topic 718). For long-term equity awards, the Company records expense in accordance with ASC Topic 718. The amount of expense recorded pursuant to ASC Topic 718 may vary from the corresponding compensation value used in determining the amount of the awards.

Amount and allocation of grant—For 2015 the total annual targeted long-term incentive grant value was 125% of salary and targeted annual bonus for Messrs. Atkin and Childs and 100% of salary and targeted annual bonus for Messrs. Steel, Simmons and Thompson. Mr. Vais' targeted long-term incentive grant value was awarded on a pro-rata basis at 70% of salary and targeted annual bonus through his September 2015 appointment as executive officer of ExpressJet and at 100% of salary and targeted annual bonus following his appointment. The Compensation Committee established these annual targeted amounts to provide a competitive pay package and to ensure that a large portion of each Executive's compensation was based on continuing long-term service and correlated to the creation of shareholder value. This has been the Compensation Committee's policy for several years, but is subject to review and continuation or modification each year by the Compensation Committee. The targeted levels of long-term incentive awards for Messrs. Atkin and Childs are higher than the targeted levels of long-term incentive awards for other Executives as a result of their overall responsibility for the long-term success of the Company. Each Executive's 2015 long-term incentive award was allocated among three types of long-term awards as follows: stock options, restricted stock units and performance shares.

The value of stock options, restricted stock units and performance shares is directly related to the value of the Common Stock and correlates to long-term shareholder value. Stock options, restricted stock unit and performance share grants in 2015 were made pursuant to the Company's 2010 Plan, as shown in greater detail below and in the table labeled "Grants of Plan Based Awards."

The following table summarizes the number and nature of long-term awards granted to the Executives by the Company on February 17, 2015, and in the case of mid-year position changes, April 2, 2015 and September 9, 2015, under the 2010 Plan.

(1) Number of performance shares if 100% of target is achieved.

Stock Options—Options are granted with an exercise price equal to the closing price per share on the date of grant and vest one third at each annual anniversary of the date of grant over a three year period. Grants are made on a systematic schedule, generally one grant per year made at the first Compensation Committee meeting of each year.

The purpose of stock options is to tie a significant percentage of the award's ultimate value to increases in the market price of the Common Stock, thereby rewarding increased value to the shareholders. A stock option only has a value to the extent the value of the underlying shares on the exercise date exceeds the exercise price. Accordingly, stock options provide compensation only if the underlying share price increases over the option term and the Executive's employment continues through the vesting date.

The size of the grant for each Executive is calculated by determining the number of shares with a theoretical future value equal to the targeted compensation for stock options, assuming each option will have a value equal to 33% of its exercise price. This value generally correlates to the ASC Topic 718 value of the awards. The targeted stock option allocation of each Executive's aggregate, targeted level of long-term incentive compensation for 2015 was 20%.

Restricted Stock Units—The Company also granted restricted stock units to the Executives in 2015 under the 2010 Plan. The restricted stock units awarded to an Executive entitle the Executive to receive a designated number of shares of Common Stock upon completion of a three-year vesting period, measured from the date of grant. Until the vesting date, the shares underlying the restricted stock units are not issued and outstanding. Accordingly, the Executive is not entitled to vote or receive dividends on the shares underlying his restricted stock units unless and until those restricted stock units vest. The purpose of the restricted stock unit component is to support continued employment through volatile economic and stock market conditions, to manage dilution overhang, and to align officers' interests with maintaining shareholder value already created. The Compensation Committee believes this approach mitigates the incentive for Executives to take unnecessary risks and helps retain the Executives' expertise through continued employment. Recipients of restricted stock units do not pay for the underlying shares once the awards vest; however they must remain employed by the Company for three years to receive the underlying shares. Restricted stock unit awards provide the Executives with an indirect ownership stake in the Company and encourage the Executives to continue employment in order to receive the underlying shares. The compensation value of a restricted stock unit award does not depend solely on future stock price increases; at grant, its value is equal to the market price of the Common Stock. Although its value may increase or decrease with changes in the stock price during the period before vesting, a restricted stock unit award will likely have value even without future stock price appreciation. Accordingly, restricted stock unit awards deliver significantly greater share-for-share compensation value at grant than do stock options, and the Company can offer what it anticipates will be comparable grant date compensation value with approximately 65% fewer shares than if the grant were made solely with stock options.

The annual award of restricted stock units to each Executive for 2015 consisted of the right to receive upon future vesting a number of shares of Common Stock. The targeted restricted stock unit allocation of each Executive's aggregate, targeted level of long-term incentive compensation for 2015 was 40%.

Performance Shares—The remaining component of each Executive's 2015 annual long-term incentive award was performance shares payable in Common Stock under the 2010 Plan. The performance shares allocation of each Executive's aggregate, targeted level of long-term incentive compensation for 2015 was 40%. The purpose of the performance share awards is to reward achievement of a financial efficiency objective that supports shareholder value and reflects real performance. The objectives upon which performance share awards are based are established annually by the Compensation Committee. It is the view of the Compensation Committee that those objectives should be set at levels which are high enough to motivate the Executives to achieve exceptional Company performance. Under each Executive's performance shares award, a grant of Common Stock is made upon completion of a three-year vesting period from the date of the grant (subject to the Executive's continued employment through the vesting date), based on the level of pre-tax earnings, cash flow from operations and increase in pre-tax return on equity actually attained over the 2015 to 2017 calendar years. Until the vesting date, the shares underlying the performance shares are not issued and

outstanding. Accordingly, the Executive is not entitled to vote or receive dividends on the shares underlying his performance shares unless and until those performance shares vest.

The Compensation Committee's philosophy for setting performance share targets is to set maximum targets that will be difficult for the Executives to achieve on a consistent basis. The 2015 to 2017 committee-designated combined targeted pre-tax earnings over the three year period was set as \$318 million (with a threshold of \$249 million and max of \$382 million), combined cash flow from operations over the three year period was set as \$803 million (with a threshold of \$642 million and max of \$963 million) and combined increase in pre-tax return on equity over the three year period was set as 6.96% (with a threshold of 5.46% and max of 8.37%), with the actual amount of performance shares granted to each Executive to be adjusted in proportion to the extent to which the combined actual results varied from the target levels of performance. The performance shares are allocated equally between each of the three metrics in determining the actual awarded performance shares payable in Common Stock. Specifically, (i) if pre-tax earnings, cash flow from operations and increase in pre-tax return on equity had been equal to or greater than the above listed targets, then 100% or more of the performance shares would have been earned (up to a maximum of 150% of the performance shares) by the Executive attributable to each identified target; (ii) if pre-tax earnings, cash flow from operations and increase in pre-tax return on equity had ranged from the threshold to the target, then 50% to 100% of the performance shares would have been earned by the Executive attributable to each identified target; and (iii) if pre-tax earnings, cash flow from operations and increase in pre-tax return on equity had been less than the threshold, then no performance shares would have been earned by the Executive attributable to each identified target.

The 2015 to 2017 goals for each Executive were based on the combined Company's targeted pre-tax earnings, cash flow from operations and increase in pre-tax return on equity, and there were no alternative operating company goals set for the Chief Operating Officers of the operating subsidiaries, thus encouraging teamwork and a collective focus on the creation of long-term value for the Company's shareholders. In determining the degree to which the targeted pre-tax earnings, cash flow from operations and increase in pre-tax return on equity goals have been attained, the Compensation Committee will adjust results during the three year period for unusual or non-recurring items.

Actual results for performance shares awarded in 2015 are measured over a three year period including 2015 to 2017. Therefore, the degree to which performance shares granted in 2015 ultimately earned will not be determined until the conclusion of the 2017 calendar year.

Long-Term Awards for 2016. The Compensation Committee determined to adjust the long-term incentive metrics for performance shares awarded for 2016 in an effort to better align the incentive awards with the creation of shareholder value and to align the compensation package of the Executives with those of other regional and major air carrier executive compensation programs. The actual performance shares granted will be measured with respect to pre-tax earnings, cumulative earnings per share and return on invested capital over the applicable three-year measurement period.

Retirement and Other Benefits.

The Company and SkyWest Airlines sponsor a 401(k) retirement plan for their eligible employees, including the Executives other than Mr. Vais. ExpressJet also maintains a substantially equivalent 401(k) plan for its eligible employees, including Mr. Vais. Both plans are broad based, tax-qualified retirement plans under which eligible employees, including the Executives, may make annual pre-tax salary reduction contributions subject to the various limits imposed under the Internal Revenue Code of 1986, as amended (the "Code"). The sponsoring employers make matching contributions under the plans on behalf of eligible participants; however, the right of Executives and other officers to such matching contributions is limited. The Compensation Committee believes that maintaining the 401(k) retirement plans and providing a means to save for retirement is an essential part of a competitive compensation package necessary to attract and retain talented executives.

The Company also maintains the SkyWest, Inc. 2002 Deferred Compensation Plan, a non-qualified deferred compensation plan for the benefit of officers and other highly compensated employees. All of the Executives other than Mr. Vais participate in the SkyWest, Inc. 2002 Deferred Compensation Plan. ExpressJet also maintains a separate but similar non-qualified deferred compensation plan, the ExpressJet Executive Deferred Compensation Plan, for its highly compensated management employees, including Mr. Vais. Under both such deferred compensation plans (the “Deferred Compensation Plans”), the employer credits each Executive’s account with a discretionary employer contribution equal to 15% of salary and annual bonus. These amounts are included in the Summary Compensation Table under the column “All Other Compensation”. Additional information on the Deferred Compensation Plans is found in the section “Non-Qualified Deferred Compensation for 2015” below.

The SkyWest Inc. 2002 Deferred Compensation Plan (but not the ExpressJet Executive Deferred Compensation Plan) also permits eligible executives, including the Executives, to elect in advance of each calendar year to defer up to 100% of their cash salary and annual bonus compensation for the year. Only Mr. Thompson elected to defer any portion of his salary or annual bonus for 2015. The Company and its subsidiaries do not maintain any defined benefit pension plans for the Executives.

Other Benefits. In addition to the benefits described above, the Company provides certain other benefits to the Executives that the Compensation Committee believes are generally consistent with the benefits provided to senior executives of other airlines. The Compensation Committee believes that those benefits, which are detailed in the footnotes to the Summary Compensation Table applicable to the heading “All Other Compensation” below, are reasonable, competitive and consistent with overall executive compensation objectives. Those benefits consist primarily of employer-paid premiums on health, dental and eye insurance, a personal automobile allowance, and use of Company owned recreational equipment.

The Company and its subsidiaries also maintain a non-discriminatory, broad based program under which all full-time employees and their dependents, including the Executives and their dependents, may fly without charge on a space available basis on regularly scheduled flights of aircraft operated by the Company’s operating airline subsidiaries.

Ownership Guidelines

The Company maintains ownership guidelines for the Executives to encourage the alignment of their interests with the long-term interests of the Company’s shareholders. Each Executive is strongly encouraged to maintain a minimum ownership interest in the Company. The guideline ownership level is a number of shares of Common Stock having a value equal to a recommended multiple of the annual base salary for each Executive. Any Executive that did not meet the guidelines at December 31, 2015 is encouraged to make progress towards the ownership guideline. The holdings of the Executives are summarized in the table entitled “Security Ownership of Certain Beneficial Owners” below.

Deductibility of Executive Compensation

Section 162(m) of the Code imposes a \$1 million annual limit on the amount that a publicly traded company may deduct for compensation paid to the company’s principal executive officer during a tax year or to any of the company’s three other most highly compensated executive officers who are still employed at the end of the tax year (other than the Company’s principal financial officer). The limit does not apply to compensation that meets the requirements of Section 162(m) of the Code for “qualified performance-based compensation” (i.e., compensation paid only if the executive meets pre-established, objective goals based upon performance criteria approved by the Company’s shareholders). The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code. In certain situations, the Compensation Committee may approve compensation that will not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. Stock options and performance shares awarded to the Executives during 2015 were intended to constitute “qualified performance-based compensation” under Section 162(m) of the Code. The Company’s 2015

restricted stock unit grants and 2015 performance-based annual bonuses, however, were not “qualified performance-based compensation.” As a result, a portion of the compensation earned by Messrs. Atkin and Childs for 2015 exceeded the deduction limit of Section 162(m) of the Code.

Effect of Compensation on Risk

Based on the Compensation Committee’s review of the various elements of the Company’s executive compensation practices and policies, the Compensation Committee believes the Company’s compensation policies and practices are designed to create appropriate and meaningful incentives for the Company’s employees without encouraging excessive or inappropriate risk taking. Among other factors, The Compensation Committee considered the following information:

- The Company’s compensation policies and practices are designed to include a significant level of long-term compensation, which discourages short-term risk taking.
- The base salaries the Company provides to its employees are generally consistent with salaries paid for comparable positions in the Company’s industry, and provide the Company’s employees with steady income while reducing the incentive for employees to take risks in pursuit of short-term benefits.
- The Company’s incentive compensation is capped at levels established by the Compensation Committee, which the Compensation Committee believes reduces the incentive for excessive risk-taking.
- The Company has established internal controls and adopted codes of ethics and business conduct, which are designed to reinforce the balanced compensation objectives established by the Compensation Committee.
- The Company has adopted equity ownership guidelines for its executive officers, which the Compensation Committee believes discourages excessive risk-taking.

Based on the review outlined above, the Company has concluded that the risks arising from its compensation policies and practices for its employees are not reasonably likely to have a material adverse effect on the Company.

- (1) Column (d) includes discretionary annual performance bonuses approved by the Compensation Committee for 2014 of \$19,100 to Mr. Childs and \$12,345 to Mr. Steel. Such bonuses were paid during 2015, Messrs. Atkin, Simmons, Thompson and Vais did not receive a discretionary annual performance bonus for 2014. No discretionary annual performance bonuses were awarded to the Executives in 2013 or 2015.

The amounts in column (d) also include the amounts, approved by the Compensation Committee, of discretionary performance unit awards issued in 2015 with respect to 2014, but payable in cash in 2017, subject to forfeiture in the event of termination of employment prior to February 18, 2017. The 2017 cash value of those discretionary performance unit awards for 2014 service were \$392,641 for Mr. Atkin, \$233,375 for Mr. Childs, \$117,895 for Mr. Steel and \$112,050 for Mr. Thompson. Messrs. Simmons and Vais did not earn discretionary performance unit awards with respect to 2014.

- (2) These columns show the full grant date fair market value of the options granted as computed under ASC Topic 718, the expense attributable to restricted stock unit awards and the expense attributable to performance shares awards at the 100% target threshold (excluding estimates for forfeitures in case of awards with service-based vesting). These amounts do not reflect the extent to which the Executive realized an actual financial benefit from the awards. Assumptions and methodologies used in the calculation of these amounts are included in footnotes to the Company's audited financial statements for the year ended December 31, 2015 which are included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission.
- (3) The amounts in column (h) reflect the annual performance bonus amounts earned in the year indicated based on performance in that year and paid in the subsequent year. As described in the section entitled "Compensation Discussion and Analysis" above, annual performance bonuses payable to the Executives are calculated based upon

the financial performance of the Company or its subsidiaries and also the achievement of individual goals. The target amount of each Executive's annual performance bonus opportunity for 2015 is reported in the "Grants of Plan-Based Awards for 2015" table below, and included in the applicable amount shown in the column(c) of that table. The amounts of such annual performance bonuses, excluding discretionary bonuses reported in column (d), actually earned in 2015 and paid in 2016 were: Mr. Atkin—\$606,093; Mr. Childs—\$464,277; Mr. Steel—\$270,125; Mr. Simmons—\$337,656; Mr. Thompson—\$235,624; and Mr. Vais—\$163,371.

Non-Qualified Deferred Compensation for 2015

Pursuant to the SkyWest Deferred Compensation Plan and the ExpressJet Deferred Compensation Plan, covered Executives may elect prior to the beginning of each calendar year to defer the receipt of base salary and annual performance bonuses earned for the ensuing calendar year. Amounts deferred are credited to an unfunded liability account maintained by the Company on behalf of the applicable Executive, which account is deemed invested in and earns a rate of return based upon certain notational, self-directed investment options offered under the applicable plan.

Each Executive's account under the SkyWest Deferred Compensation Plan and ExpressJet Deferred Compensation Plan, as applicable, is also credited with a discretionary employer contribution monthly, whether or not the Executive contributes. For 2015 that discretionary employer contribution was 15% of the Executive's salary and annual bonus. Participant account balances under the SkyWest and ExpressJet Deferred Compensation Plans are fully

vested and will be paid by the Company to each Executive upon retirement or separation from employment, or on other specified dates, in a lump sum form or in installments according to a schedule elected in advance by the Executive.

Potential Payments upon Termination or Change in Control

The information below describes and quantifies certain payments or benefits that would be payable under the existing plans and programs of the Company and its subsidiaries if an Executive's employment had terminated on December 31, 2015, or the Company had undergone a change in control on December 31, 2015. These benefits are in addition to benefits generally available to all salaried employees of the Company in connection with a termination of employment, such as distributions from the 401(k) Plans, disability and life insurance benefits, the value of employee-paid group health plan continuation coverage under the Consolidated Omnibus Reconciliation Act, or "COBRA" and accrued vacation pay. Except as noted below, the Executives do not have any other severance benefits, severance agreements or change-in-control agreements.

Accelerated Vesting of Stock Options and Stock Awards Upon Change In Control. Under the Company's long-term incentive plans, all outstanding stock options, restricted stock units, performance shares and performance units held by an Executive on December 31, 2015, would have become fully vested upon a "change in control" occurring on that date without regard to whether the Executive terminated employment in connection with or following the change in control subject to the Compensation Committee approval. The Company's long-term incentive plans generally define a "change in control" as any of the following events: (i) the acquisition by any person of 50% or more of the Company's voting shares, (ii) replacement of a majority of the Company's directors within a two-year period under certain conditions, or (iii) shareholder approval of a merger in which the Company is not the surviving entity, sale of substantially all of the Company's assets or liquidation.

The following table shows for each Executive the intrinsic value of his unvested stock options, unvested restricted stock units, performance shares and performance units payable in cash, as of December 31, 2015, that would have been accelerated had a change in control of the Company occurred on that date, calculated in the case of restricted stock units, performance shares and stock options, by multiplying the number of underlying shares by the closing price

of the Common Stock on the last trading day of 2015 (\$19.02 per share) and, in the case of stock options, by then subtracting the applicable option exercise price:

<u>Name</u>	<u>Early Vesting of Stock Options</u>	<u>Early Vesting of Restricted Stock Units</u>	<u>Early Vesting of Performance Shares</u>	<u>Early Vesting of Performance Units</u>
Jerry C. Atkin	\$ 1,380,545	\$ 1,590,586	\$ 606,491	\$ 595,325
Russell A. Childs	\$ 771,928	\$ 1,033,185	\$ 464,583	\$ 350,555
Wade J. Steel	\$ 219,091	\$ 481,872	\$ 243,285	\$ 152,895
Robert J. Simmons	\$ 118,742	\$ 304,092	\$ 304,092	\$ —
Michael B. Thompson	\$ 202,210	\$ 443,965	\$ 218,235	\$ 144,810
Terry M. Vais	\$ 169,999	\$ 282,428	\$ 130,724	\$ 91,880

If a change in control with respect to the Company results in acceleration of vesting of an Executive's otherwise unvested stock options, unvested restricted stock units, performance shares or performance unit awards payable in cash, and if the value of such acceleration equals or exceeds three times the Executive's average W-2 compensation with the Company for the five taxable years preceding the year of the change in control (the "Base Period Amount"), the acceleration would result in an excess parachute payment under Code Section 280G. An Executive would be subject to a 20% excise tax on any such parachute payment in excess of the Base Period Amount, and the Company would be unable to deduct the amount of the parachute payment in excess of the Base Period Amount for tax purposes. The Company has not agreed to provide its Executives with any gross-up or reimbursement for excise taxes imposed on excess parachute payments.

Deferred Compensation. If the employment of an Executive were terminated on December 31, 2015, the Executive would have become entitled to receive the balance in his account under the applicable deferred compensation plan. Distribution would be made in the form of a lump sum or in installments, and in accordance with the distributions schedule elected by the Executive under the applicable plan. The 2015 year-end account balances under those plans are shown in column (e) in the applicable Non-qualified Deferred Compensation Tables set forth above. An Executive's account balance would continue to be credited with notational investment earnings or losses through the date of actual distribution.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transaction with Related Party

Jerry C. Atkin, the Company's Chairman of the Board and former Chief Executive Officer, serves on the Board of Directors of Zions Bancorporation ("Zions"). Review and Approval of Transactions with Related Parties

The Company believes that transactions between the Company and its directors and executive officers, or between the Company and persons related to directors and executive officers of the Company, present a heightened risk of creating or appearing to create a conflict of interest. Accordingly, the Company has adopted a policy regarding related-party transactions that has been approved by the Board and incorporated into the Charter of the Audit and Finance Committee. The policy provides that the Audit and Finance Committee will review all transactions between the Company and related persons (as defined in Item 404 of Regulation S-K promulgated by the Securities and Exchange Commission) for potential conflicts of interest. Under the Company's policy, all transactions between the Company and related persons are required to be submitted to the Audit and Finance Committee for approval prior to the Company's entry or participation in such transactions.

DIRECTOR COMPENSATION

The Company uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve as directors. In setting director compensation, the Company considers the significant amount of time that directors expend in fulfilling their duties to the Company, as well as the skill level required by the Company of its directors. Directors are encouraged to own shares of Common Stock having a value equal to three times the amount of their annual cash retainer.

Cash Compensation Paid to Directors

For the year ended December 31, 2015, all directors who were not employees of the Company received an annual cash retainer of \$40,000 and attendance fees of \$2,000 for each in-person Board meeting attended, \$1,800 for each in-person Audit and Finance Committee meeting attended, \$1,400 for each in-person Compensation Committee meeting attended, \$1,400 for each in-person Nominating and Corporate Governance Committee meeting attended and \$1,400 for each in-person Safety and Compliance Committee meeting attended. PROPOSAL 2
ADVISORY VOTE ON EXECUTIVE COMPENSATION

Background

Section 14A of the Exchange Act, which was enacted pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, requires that the Company provide its shareholders with the opportunity to vote on an advisory (non-binding) resolution to approve the compensation of the Executives (referred to as a “Say-on-Pay” proposal) as disclosed in this Proxy Statement.

Accordingly, the following resolution will be submitted to the Company’s shareholders for approval at the Meeting:

“RESOLVED, that the Company’s shareholders approve, on an advisory basis, the compensation of the Executives, as disclosed in the Company’s Proxy Statement for the 2016 Annual Meeting of Shareholders pursuant to the compensation disclosure rules of the U.S. Securities and Exchange Commission, including the Compensation Discussion and Analysis, the 2015 Executive Compensation table and the other related tables and disclosure.”

As described in detail under the heading “Compensation Discussion and Analysis,” the Board believes the Company’s compensation of the Executives achieves the primary goals of (i) attracting and retaining experienced, well-qualified executives capable of implementing the Company’s strategic and operational objectives, (ii) aligning management compensation with the creation of shareholder value on an annual and long-term basis, and (iii) linking a substantial portion of the Executives’ compensation with long-term Company performance and the achievement of pre-determined goals, while at the same time avoiding the encouragement of unnecessary or excessive risk-taking. The Board encourages you to review in detail the Compensation Discussion and Analysis beginning on page 24 of this Proxy Statement and the executive compensation tables beginning on page 34 of this Proxy Statement. In light of the information set forth in such sections of this Proxy Statement, the Board believes the compensation of the Executives for the fiscal year ended December 31, 2015 was fair and reasonable and that the Company’s compensation programs and practices are in the best interests of the Company and its shareholders.

The vote on this Say-on-Pay resolution is not intended to address any specific element of compensation; rather, the vote relates to all aspects of the compensation of the Executives, as described in this Proxy Statement. While this vote is only advisory in nature, which means that the vote is not binding on the Company, the Board and the Compensation Committee (which is composed solely of independent directors), value the opinion of the Company’s shareholders and will consider the outcome of the vote when addressing future compensation arrangements.

We are required under current law to hold this advisory “Say-on-Pay” vote at least once every three years. We have held such an advisory vote at each of our annual meetings of shareholders since 2011 and currently anticipate that we will hold a similar vote on an annual basis until we hold our next shareholder advisory vote on the frequency of future Say-on-Pay votes.

Voting

Approval of the resolution above (on a non-binding, advisory basis) requires that the number of votes cast at the Meeting, in person or by proxy, in favor of the resolution exceeds the number of votes cast in opposition to the resolution.

The Board and the Compensation Committee Recommend that Shareholders Vote *FOR* Approval of the Compensation of the Executives, as disclosed in this Proxy Statement.

The Company is seeking shareholder ratification of such action.

It is expected that representatives of Ernst & Young LLP will attend the Meeting and be available to make a statement or respond to appropriate questions.

The Board and the Audit and Finance Committee Recommend that Shareholders Vote *FOR* the Ratification of Appointment of Ernst & Young LLP as the Company's Independent Registered Public Accounting Firm (Independent Auditors) for the year ending December 31, 2016.

AUDIT AND FINANCE COMMITTEE DISCLOSURE

Who served on the Audit and Finance Committee?

The members of the Audit and Finance Committee as of December 31, 2015, were W. Steve Albrecht (Chairman), Henry J. Eyring, Andrew C. Roberts, Keith E. Smith and James Welch. Each member of the Audit and Finance Committee has been determined by the Board to be independent under the rules of the Securities and Exchange Commission and The Nasdaq Global Select Market. The Board has determined that W. Steve Albrecht, who served on the Audit and Finance Committee during the year ended December 31, 2015, is an “audit committee financial expert” as defined in Item 401(h) (2) of Regulation S-K promulgated under the Exchange Act.

What document governs the activities of the Audit and Finance Committee?

The Audit and Finance Committee acts under a written charter, which sets forth its responsibilities and duties, as well as requirements for the Audit and Finance Committee’s composition and meetings. The Audit and Finance Committee charter is available on the Company’s website at inc.skywest.com, and is also available in print, free of charge, upon request. Requests for a printed copy of the Audit and Finance Committee charter should be submitted to Eric J. Woodward, Chief Accounting Officer of the Company, at 444 South River Road, St. George, Utah 84790.

How does the Audit and Finance Committee conduct its meetings?

During the year ended December 31, 2015, the Audit and Finance Committee met with the senior members of the Company’s financial management team at each of its regular scheduled quarterly meetings. The Audit and Finance Committee also met with representatives of Ernst & Young, LLP (“EY”), the Company’s independent registered public accounting firm, at each of its in-person meetings and met with representatives of Protiviti, Inc. (“Protiviti”), the Company’s principal internal auditor, at several of its meetings. Agendas for the Audit and Finance Committee’s meetings are established by the Chairman of the Audit and Finance Committee, after consultation with the Company’s Chief Financial Officer and Chief Accounting Officer. At those meetings, the Audit and Finance Committee reviewed and discussed the Company’s financial performance, financial reporting practices, various financial and regulatory issues, accounting and financial management issues, developments in the accounting profession, as well as the Company’s industry, risk management and a summary of calls received on the Company’s anonymous reporting line. The Audit and Finance Committee also had separate, executive sessions regularly with representatives of EY, the Company’s Chief Financial Officer, Protiviti and the Company’s legal counsel, at which meetings candid discussions of financial management, accounting, internal controls and legal and compliance issues took place. Additionally, the Chairman of the Audit and Finance Committee had separate discussions regularly with the Chief Financial Officer and representatives of EY, Protiviti and the Company’s legal counsel.

Does the Audit and Finance Committee review the periodic reports and other public financial disclosures of the Company?

The Audit and Finance Committee reviews each of the Company’s quarterly and annual reports, including Management’s Discussion and Analysis of Financial Condition and Results of Operations. As part of its review, the Audit and Finance Committee discusses the reports with the Company’s management and independent registered public accounting firm and considers the audit and review reports prepared by the independent registered public accounting firm about the Company’s quarterly and annual reports, as well as related matters such as the quality (and not just the acceptability) of the Company’s accounting practices, alternative methods of accounting under generally accepted accounting principles in the United States (“GAAP”) and the preferences of the independent registered public accounting firm in this regard, the Company’s critical accounting policies and the clarity and completeness of the Company’s financial and other disclosures.

Did the Audit and Finance Committee play any role in connection with the Company’s report on internal controls?

The Audit and Finance Committee reviewed management’s report on internal control over financial reporting, required under Section 404 of the Sarbanes Oxley Act of 2002 and related rules. As part of this review, the Audit and Finance Committee reviewed the bases for management’s conclusions in that report, and also reviewed the report of the independent registered public accounting firm on internal control over financial reporting. Throughout the year ended December 31, 2015, the Audit and Finance Committee reviewed management’s plan for documenting and testing controls, the results of their documentation and testing, any deficiencies discovered and the resulting remediation of any such deficiencies.

What is the role of the Audit and Finance Committee in connection with the financial statements and controls of the Company?

Management of the Company has primary responsibility for the Company’s financial statements and internal control over the Company’s financial reporting. The Company’s independent registered public accounting firm has responsibility for the integrated audit of the Company’s financial statements and internal control over financial reporting. It is the responsibility of the Audit and Finance Committee to oversee financial and control matters, among other responsibilities fulfilled by the Audit and Finance Committee under its charter. The Audit and Finance Committee meets regularly with representatives of EY and Protiviti, without the presence of management, to ensure candid and constructive discussions about the Company’s compliance with accounting standards and best practices among public companies comparable in size and scope to the Company. The Audit and Finance Committee also regularly reviews with its outside advisors material developments in the law and accounting literature that may be pertinent to the Company’s accounting financial reporting practices.

Does the Audit and Finance Committee have any policy-making responsibility?

From time to time, the Audit and Finance Committee establishes certain policies as required by the rules of the Securities and Exchange Commission and the listing standards of The Nasdaq Global Select Market. For example, the Audit and Finance Committee has established a policy for the receipt and retention (including on an anonymous basis) of complaints about financial and control matters. The Audit and Finance Committee also has implemented a policy that addresses when the Company may recruit personnel who formerly were employed by the Company’s independent registered public accounting firm. In other cases, the Audit and Finance Committee is responsible for overseeing the efficacy of management policies, including compliance with the Company’s Code of Ethics and the availability of perquisites.

What matters have members of the Audit and Finance Committee discussed with the independent registered public accounting firm?

In its meetings with representatives of EY, the Audit and Finance Committee asked EY to address and discuss their responses to several questions that they believed were particularly relevant to its oversight. These questions included:

- Are there any significant judgments made by management in preparing the financial statements that would have been made differently had EY prepared and been responsible for the financial statements?
- Based on EY’s experience, and their knowledge of the Company, do the Company’s financial statements fairly present to investors, with clarity and completeness, the Company’s financial position and performance for the reporting period in accordance with GAAP and Securities and Exchange Commission disclosure requirements?

- Based on EY’s experience, and their knowledge of the Company, has the Company implemented internal controls and internal audit procedures that are appropriate for the Company?
- During the course of the applicable year, has EY received any communication or discovered any information indicating any improprieties with respect to the Company’s accounting and reporting procedures or reports?

The Audit and Finance Committee has also discussed with EY that they are retained by the Audit and Finance Committee and that they must raise any concerns about the Company’s financial reporting and procedures directly with the Audit and Finance Committee. Based on these discussions and its discussions with management, the Audit and Finance Committee believes it has a basis for its oversight judgments and for recommending that the Company’s audited financial statements be included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015.

What has the Audit & Finance Committee done with regard to the Company’s audited financial statements for the year ended December 31, 2015?

The Audit and Finance Committee has:

- Reviewed and discussed the Company’s audited financial statements with the Company’s management; and
- Discussed with EY the matters required to be discussed by applicable standards of the Public Accounting Oversight Board.

Has the Audit and Finance Committee considered the independence of the Company’s independent registered public accounting firm?

The Audit and Finance Committee has received from EY the written disclosures regarding EY’s independence required by PCAOB Ethics and Independence Rule 3526, Communication with Audit Committees Concerning Independence, and has discussed with EY their independence. The Audit and Finance Committee has concluded that EY is independent from the Company and its management.

Has the Audit and Finance Committee made a recommendation regarding the audited financial statements for the year ended December 31, 2015?

Based upon its review and the discussions with management and the Company’s independent registered public accounting firm, the Audit and Finance Committee recommended to the Board that the audited consolidated financial statements for the Company be included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015.

Does the Audit and Finance Committee provide a periodic report of its activities to the Board?

The Audit and Finance Committee provides reports of its activities at each regularly scheduled Board meeting.

Has the Audit and Finance Committee reviewed the fees paid to the Company’s independent registered public accounting firm during the year ended December 31, 2015?

The Audit and Finance Committee has reviewed and discussed the fees paid to EY during the year ended December 31, 2015, for audit, audit-related, tax and other services, which are set forth below under “Fees Paid to

Independent Registered Public Accounting Firm.” The Audit and Finance Committee has concluded that EY’s delivery of non-audit services is compatible with EY’s independence.

What is the Company’s policy regarding the retention of the Company’s independent registered public accounting firm?

The Audit and Finance Committee has adopted a policy regarding the retention of the independent registered public accounting firm that requires pre-approval of all services by the Audit and Finance Committee or the Chairman of the Audit and Finance Committee. When services are pre-approved by the Chairman of the Audit and Finance Committee, notice of such approval is given to the other members of the Audit and Finance Committee and presented to the full Audit and Finance Committee at its next scheduled meeting.

REPORT OF THE AUDIT AND FINANCE COMMITTEE

In connection with the financial statements for the year ended December 31, 2015, the Audit and Finance Committee has:

- (1) reviewed and discussed the audited financial statements with management;

- (3) received the written disclosure and letter from EY regarding the auditors' independence required by PCAOB Ethics and Independence Rule 3526, Communication with Audit Committees Concerning Independence, and has discussed with the independent auditors the independent auditor's independence.

Based upon these reviews and discussions, the Audit and Finance Committee recommended to the Board at the February 10, 2016 meeting of the Board that the Company's audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2015, filed with the Securities and Exchange Commission.
