About the Award

Forbes and Statista selected the America's Best Employers 2021 through an independent survey applied to a vast sample of more than 50,000 American employees working for companies with more than 1,000 employees in America. The evaluation was based on direct and indirect recommendations from employees that were asked to rate their willingness to recommend their own employers to friends and family. Employee evaluations also included other employers in their respective industries that stood out either positively or negatively.
